E-mail: ysalama@uic.edu

Office Hours: 12:00-12:45 pm Monday and Wednesday; 12:45-1:45 pm Tuesday and Thursday; **or by appointment.**

Prerequisite:

Accounting 316: Intermediate Financial Accounting II.

From the Accounting Department Mission Statement:

The accounting department is committed to quality educational programming, research pursuits and community service. We significantly contribute to the College of Business Administration's mission to create new knowledge, new business, new value and new leaders for Chicago and the world beyond. Students admitted to our degree programs must show the potential and demonstrate proficiency in contemporary management skills such as information technology, communication techniques and teamwork. The program will promote a prospective of the global economy and cultural diversification necessary for the knowledge worker of the 21 century.

Course Objectives:

Generally accepted accounting principles and reporting practices vary significantly throughout the world, even though much attention is being paid to reducing the differences. This course examines the international dimensions of financial reporting and analysis. It provides students with an in-depth look at multinational enterprises and the preparation and presentation of financial statements in different nations. Topics covered include foreign currency transactions, translation of foreign currency financial statements, international transfer pricing, international corporate taxation, financial disclosure, and international accounting harmonization.

The objectives of this course include enhancing your understanding of:

- the historical basis for diversity in financial reporting across nations.
- convergence, harmonization, and standardization.
- the institutional and regulatory structures in accounting that have developed in response to global financial markets.
- the development of international financial accounting standards.
- the market risks of exposure to foreign currency transactions.
- translation of foreign currency financial statements.
- the analysis and comparison of U.S. and foreign financial statements.
- international taxation.
- International transfer pricing.

Catalog Description:

Financial accounting for international operations, multinational managerial accounting and control, comparative international accounting, international reporting issues and international taxation.

Required Text:

International Accounting. Doupnik and Perera, McGraw-Hill Inc. 3rd ed. 2011.

Course Website:

<http://blackboard.uic.edu/>

All materials pertaining to the course will be posted to the above site. You should also visit the Publisher's website for the text at www.mhhe.com/doupnik3e for additional support.

Teaching Method:

I consider learning to be a joint endeavor. It is my job to facilitate learning. It is your job to read the assigned materials and work the assigned exercises, problems, and cases before they are discussed in class. This calls for a lot of effort on your part. However, it is the only way you can successfully learn the course material and realistically develop the set of skills needed to become an accountant. The classes are lecture, discussion, and problem-solving oriented. You are encouraged to ask questions and provide comments as considered appropriate. Every student will be called on in class to discuss assigned material and problems. Some problems or cases may be solved in small groups (teams) during class, with one or more teams presenting their answers.

Grading:

Course final grades will be determined based upon the following criteria:

First Exam	25%	100 points
Second Exam	30%	120 points
Third Exam	25%	100 points
Quizzes	5%	20 points
Country Study Report	<u>15%</u>	<u>60</u> points
Total	<u>100%</u>	<u>400</u> points

Final grades will be based on a straight 90%, 80%, 70%, 60%, scale for an A, B, C, D, etc. The scale may be lowered if deemed necessary.

Graduate Students:

Students taking this class for graduate credit will be required to perform an extra activity. Chapter six: Comparative accounting will be divided amongst them, and they will present it in class on the days assigned for it.

Incomplete:

Incompletes will be granted only in documented cases of undue hardship or clearly extraordinary circumstances, and according to university policies.

Quizzes:

Three quizzes will be administered throughout the semester, with the lowest quiz grade being dropped. Each quiz is worth ten points. There will be no make-up quizzes.

Homework:

Each student is responsible for reading the assigned material and doing all of the assigned exercises, problems, and cases before class. Homework should be done as assigned but will not be collected. Written homework solutions will be available on blackboard shortly after the assignment's due date.

Exams:

Exams may consist of multiple choice, short answer, problems, and/or essays. They are to be taken as scheduled in the course calendar. There will be **no make-up exams**.

Groups:

As you enter your professional careers you will find out that the ability to function well as part of a group, team, or committee is necessary for success. During this course, you will have the opportunity to work in a group. Students will have the option of selecting their own group or being assigned to one. Since the group is designed to function as a unified body, everyone in the group will receive the same grade for each project. However, if at the end of the semester, a group is unanimous in criticizing a member of their group, appropriate action will be taken against that member. Please note that collusion among groups for assignments will be construed as cheating.

Country Study Report and Presentation:

Each group will be assigned to prepare a twenty minute presentation using Microsoft PowerPoint on a country (not covered in chapter six in the textbook). Each team must also submit a printed report. The report should include a title page, executive summary, ten to twelve pages in the body, a reference page, and two or more exhibits. More on this project will be available on blackboard shortly

Attendance:

Regular class attendance is essential and expected. There is a direct correlation between attendance and success in the course. If you miss a class session due to sickness or emergency, it is your responsibility to obtain the class notes from a classmate. You are responsible for everything covered in all class sessions.

Academic Integrity:

In all courses, you are expected to conduct yourselves in a manner that is consistent with the university standards of academic honesty. Any student who cheats on an assignment or exam will receive a grade of "F" for the course and may also be dismissed from the university.

General:

Every effort will be made to adhere to the information and schedule set forth in this syllabus. Any changes, which are necessitated as the semester progresses, will be announced on a timely basis. Regular attendance will ensure that you are aware of any modification made.

COURSE CALENDAR

#	Date	Day	Activities and Assignments:
